

THE SUPER Miraculous Journey OF FREDDIE YATES

FACTINATION - TRUE OR FALSE?

“Some people collect Pokémon cards, some people collect stickers, I collected facts. See, once you know a fact, it’s yours to keep for ever. It can’t leave you and no one can take it away.

CAN YOU GUESS WHICH OF THESE FACTS ARE TRUE OR FALSE?

1. A person has more bones when they are born than they do as a grown-up.
2. Adults can breathe and swallow at the same time.
3. Sharks have more teeth than garden snails.
4. The average human child's body is sixty-five per cent water.
5. An octopus has three hearts.
6. Fish can cough.
7. Moon dust is so sharp it could cut through space suits.
8. Sheep have to turn around to see behind themselves.

ANSWERS

1. TRUE - A person has around 300 bones at birth and only 206 as an adult.
2. FALSE - The pharynx changes from an airway to a food channel when we swallow.
3. FALSE - The garden snail has over 14,000 teeth.
4. TRUE - Babies have the most: their bodies are around 75% water.
5. TRUE - Two hearts move blood beyond its gills and the other one helps in pumping blood around the body.
6. TRUE - They do this to dislodge items from their gills.
7. TRUE - There is no wind on the moon, so dust never erodes and remains sharp.
8. FALSE - Sheep have a field of vision of around 300 degrees, allowing them to see behind themselves without having to turn their head.
