

SIR SIDNEY McSPROCKET'S

VICTORY VAULT

Design a Wartime Vehicle Poster

Create a tough all-terrain vehicle fit for a jungle mission!

Design your very own Jeep-like machine with features to help it survive the most extreme wartime missions. Add labels, colour it in, and give it a name – would your vehicle be ready for muddy jungles or snowy mountains?

You'll Need:

- A4 paper
- Pens, pencils, crayons
- Ruler (for neat labels)
- Optional: magazines for collage

The Jeep was so light it could be lifted into place by four soldiers!

Steps:

1. Think about where your vehicle will go – jungle? snow? mountains?
2. Draw the shape of your vehicle – add big tyres, lights, seats.
3. Add special features like a stretcher rack, water tank, or winch.
4. Label each part – what does it do?
5. Write a title and slogan at the top – like a real poster!
